USER MANUAL

Thank you for downloading the free version of *Microcosm* for Padshop Pro. Please make sure to read the installation instructions below.

The full version contains 64 lush and evocative pads and atmospheres. To purchase the Full Version, click here: [Microcosm – Soundset for Padshop Pro](#)

HOW TO INSTALL

Microcosm was created in Padshop Pro version 1.2.10.134. Please make sure that you have the correct version before installing the sound bank. Installation is simply a matter of opening the main Padshop folder on your computer and copying and pasting the file titled *Microcosm* into your Padshop preset folder.

Step-by-Step Instructions for Installation:

1. Extract/unzip the main folder labeled ***Microcosm Free Version***.

2.   Contained within is 1 folder; *Microcosm Free* (containing the presets*)*
3.   Copy and paste the folder within the appropriate location where Padshop presets are stored on your hard drive and you are done!

For Windows, place the preset folder here: C:\Users\[User Name]\Documents\VST3 Presets\Steinberg Media Technologies\Padshop\

For Mac, place the preset folder here: User/Library/Audio/Presets/Steinberg Media Technologies/Padshop

----

Pads are my favorite type of patch to create, and what I set out to do with *Microcosm* was to compile a library full of various types of pads that would suit many genres. While pads are obviously a staple of ambient music, there is a place for them within any style. It is my hope that these textures and soundscapes provide the backdrop or in some cases, the focal point, for your next track.

Enjoy and happy synthing!
